## PUBLIC NOTICE

**To all interested parties:**

This letter shall serve as a formal notice of the receipt of an application for **Section 401 Water Quality Certification** by the Indiana Department of Environmental Management (IDEM). The purpose of the notice is to inform the public of active applications submitted for water quality certification under Section 401 of the Clean Water Act (33 U.S.C. § 1341) and to solicit comments and information on any impacts to water quality related to the proposed project. IDEM will evaluate whether the project complies with Indiana's water quality standards as set forth at 327 IAC 2.

|--------------------------------|--|------------------|--|
| <b>1. Applicant:</b>           | Mr. Michael Turner<br>U. S. Army Corps of Engineers, Louisville<br>P.O. Box 59, Attn: CELRL-PM-C<br>Louisville, KY 40201   | <b>2. Agent:</b> | Mr. Matthew Schueler<br>U. S. Army Corps of Engineers, Louisville<br>P.O. Box 59, Attn: CELRL-PM-C<br>Louisville, KY 40201 |
| <b>3. Project location:</b>    | Section 2, Township 3 South, Range 6 East, New Albany USGS Quad.<br>The project site is located east of the I-64 on East Water Street.   |                  |  |
| <b>4. Affected waterbody:</b>  | Ohio River   |                  |  |
| <b>5. Project Description:</b> | The applicant proposes to restore 350 feet of failing river bank along E. Water Street. In order to do so the applicant proposes to place approximately 9,000 cubic yards of riprap revetment and 1,000 cubic yards of bedding stone below the ordinary high water mark. The total disturbance below the ordinary high water mark will total approximately 1.5 acres. In addition, an existing bench will be topped with soil and reinforced mat and the upper bank slope will be topped with soil and articulating concrete block for scour protection. Due to the historical presence of soil contamination, all debris removed from the site will be disposed of in a State approved disposal facility. Post construction, the site will be restored to prior conditions with native seed mixtures. |                  |  |

**Comment period:** Any person or entity who wishes to submit comments or information relevant to the aforementioned project may do so by the closing date noted above. Only comments or information related to water quality or potential impacts of the project on water quality can be considered by IDEM in the water quality certification review process.

**Public Hearing:** Any person may submit a written request that a public hearing be held to consider issues related to water quality in connection with the project detailed in this notice. The request for a hearing should be submitted within the comment period to be considered timely. The request should also state the reason for the public hearing as specifically as possible to assist IDEM in determining whether a public hearing is warranted.

**Questions?** Additional information may be obtained from Mr. David Carr, Project Manager, at 317-234-6350. Please address all correspondence to the project manager and reference the IDEM project identification number listed on this notice. Indicate if you wish to receive a copy of IDEM's final decision. Written comments and inquiries may be forwarded to -
